

# Briefing Note

## Dorothy Wylie Health Leaders Institute

### Opportunity for CINA Members to participate in the 2017 Dorothy Wylie Health Leaders Institute.

The Dorothy Wylie Leadership Institute ( <http://healthcareinstitute.ca>) was established in 2001 to strengthen nursing leadership. However in 2005 the Institute was expanded to include individuals from all health care disciplines. Since it held its first classes, more 2300 healthcare professionals from across Canada have attended the program.

The goals are:

- To inspire and support health care leaders across sectors and disciplines to move toward more collaborative and integrated practice;
- To develop a deeper understanding of leadership principles and skills appropriate to today's complex environment;
- To apply key concepts in real-life situations through experiential learning, and to advance a project of importance to the participants and their sponsoring organizations;
- To expand leadership networks across healthcare sectors, roles and relationships; and
- To assess personal leadership competencies and develop individual learning plans.

This year the Canadian Nurses Foundation has agreed to sponsor 2 indigenous nurses to attend the DW Health Leaders Institute.

The Dorothy Wylie Health Care Institute requires a minimum of 2 participants be registered for the program. The team should be a mix of established and emerging leaders and have identified a specific project they would like to address. Participants are expected to attend the program May 23-26 in Toronto, with a follow-up session 6 months later. The cost is \$3,898.50 per person and will be covered by the Canadian Nurses Foundation.

CINA will make the selection of applicants. We would ask that your proposed project align with CINA's priorities.

If you wish to apply please send the attached application to [ed@indigenousnurses.ca](mailto:ed@indigenousnurses.ca) by March 8, 2017.
